

Confused about the status of your student loans? Wondering about options to administrative forbearance because of your IDR plan? Feeling like loan forgiveness is unachievable?

NEA Member Benefits is here to help!

The Public Service Loan Forgiveness (PSLF) Program was fraught with problems from its inception. From loan servicers providing misleading information (in some cases, simply lying to borrowers) to Cruella DeVos denying more than 99% of forgiveness applications, leaving many borrowers believing loan forgiveness is impossible. Despite constant challenges, reforms initiated by the Biden administration resulted in more than a million borrowers receiving forgiveness from their student loan burden. But today, over 8 million borrowers are stuck in forbearance and nearly 2 million are just waiting for their PSLF applications to be processed. And on May 5, the Federal Government resumed collections on 5 million loans in default. The stress and confusion can be overwhelming!
